

Indu E-commerce Web Application

Administrator Manual

Introduction

This guide is designed to assist administrators in effectively managing the platform and optimizing user experience. As an admin, you have the ability to display all registered users and retrieve their order information, ensuring seamless oversight of user activities. Additionally, you can access comprehensive details regarding all orders and products, with the functionality to update or delete product entries as necessary.

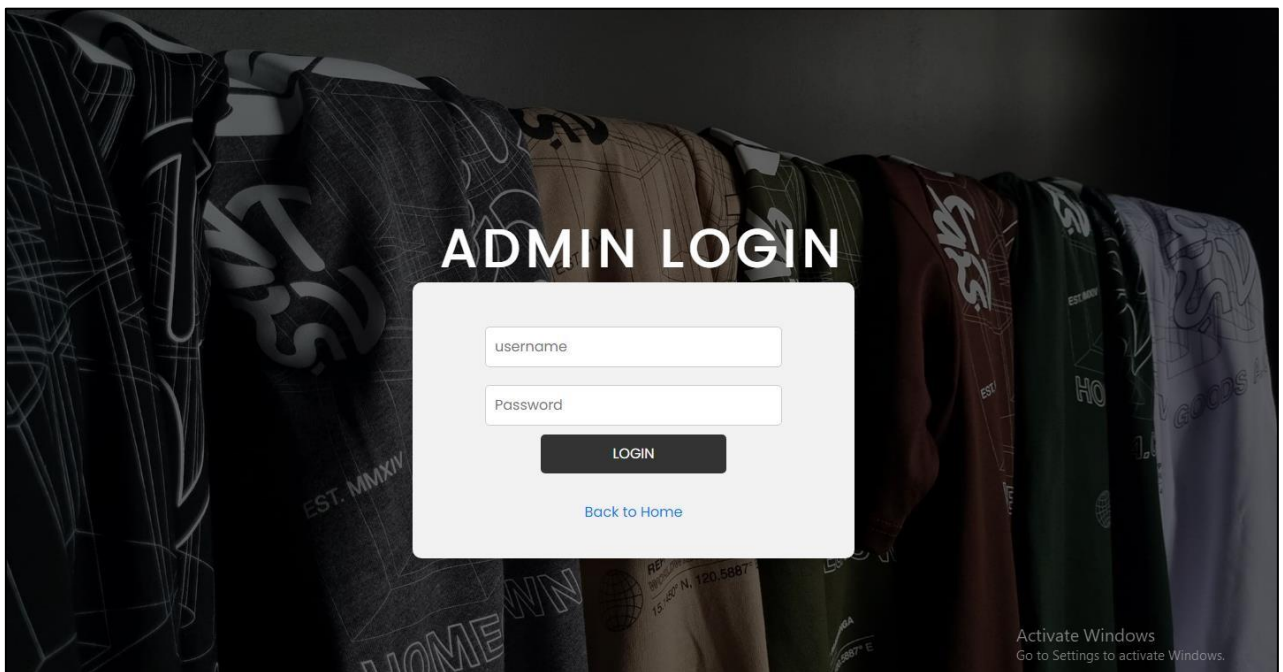

Admins also have the opportunity to enhance the product offerings by adding new products or creating categories to streamline the browsing experience for users. This manual will be your guide to help you utilize the admin dashboard to the platform's success.

Log In Process

To gain access to the admin dashboard, the administrator must first log in with the provided credentials.

Admin username: admin

Admin password: admin12345

Login Page

After a successful login, the admin is consequently redirected to the admin dashboard page.

[View Orders](#)

Upon doing so, you would be redirected into a page containing the selected customer's order history.

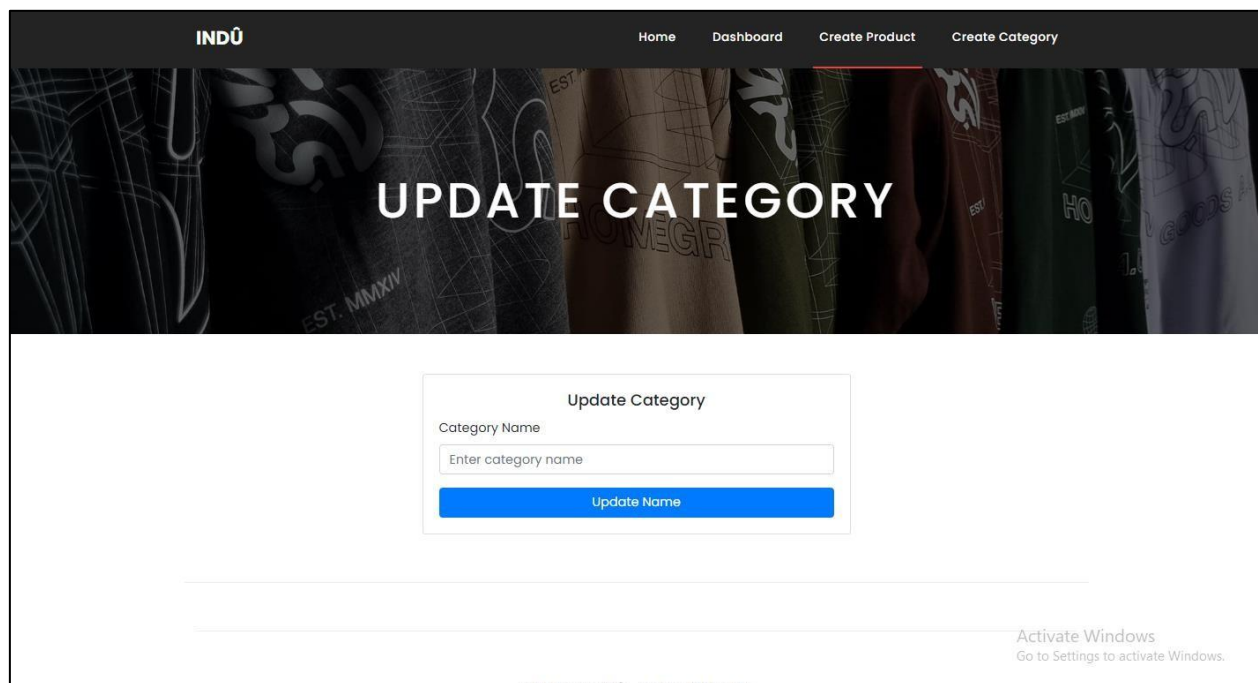

Category Operations

Update Category Name

The page administrator is also able to update the name of a selected category.

Select the **update name** button which will redirect you to an update form.

Update category form page

Inside the text box, input your desired category name to update the chosen category.

If the update was successful, you would be redirected back to the admin dashboard.

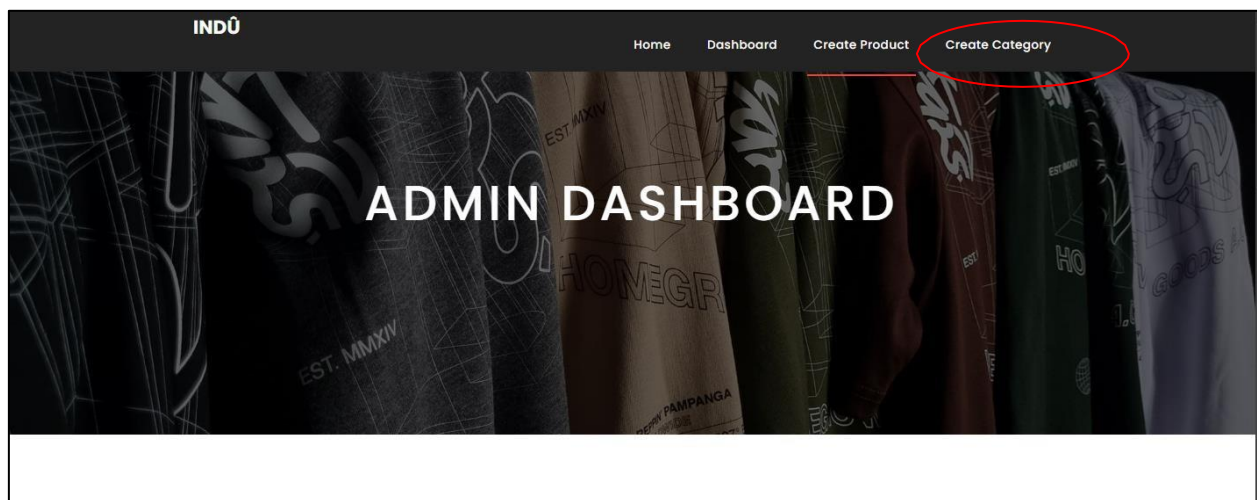

Delete Category

To delete a category, select the corresponding delete button below that category.

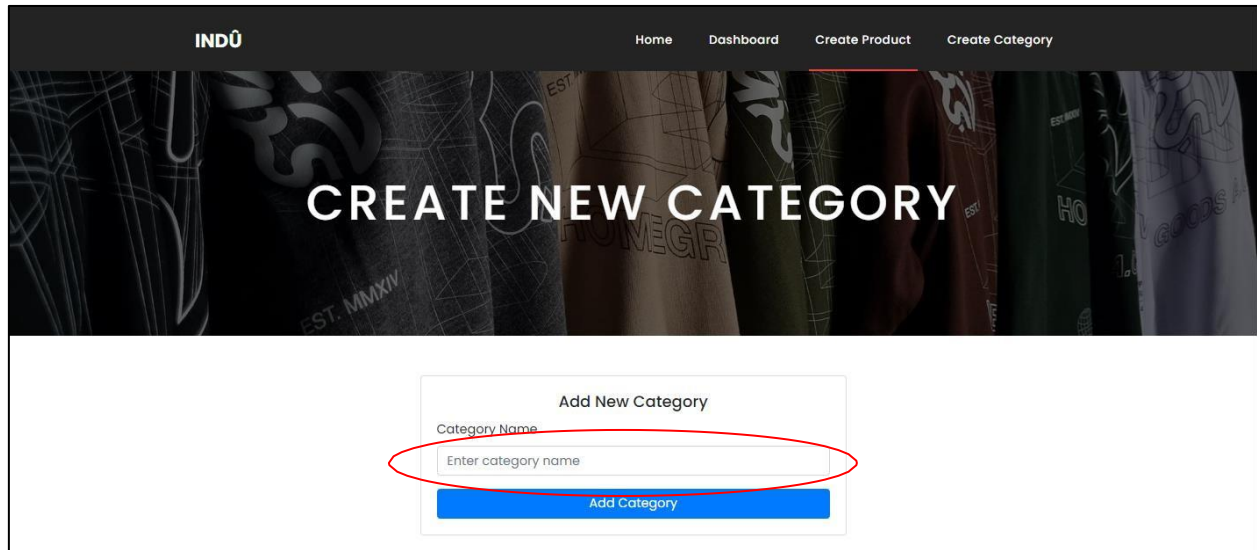

Keep in mind that deleting a category will also delete the products under it.

Adding a new category

To add another category, select the create category link inside the navigation bar.

The admin will then be redirected to a create category page that consists of a form.

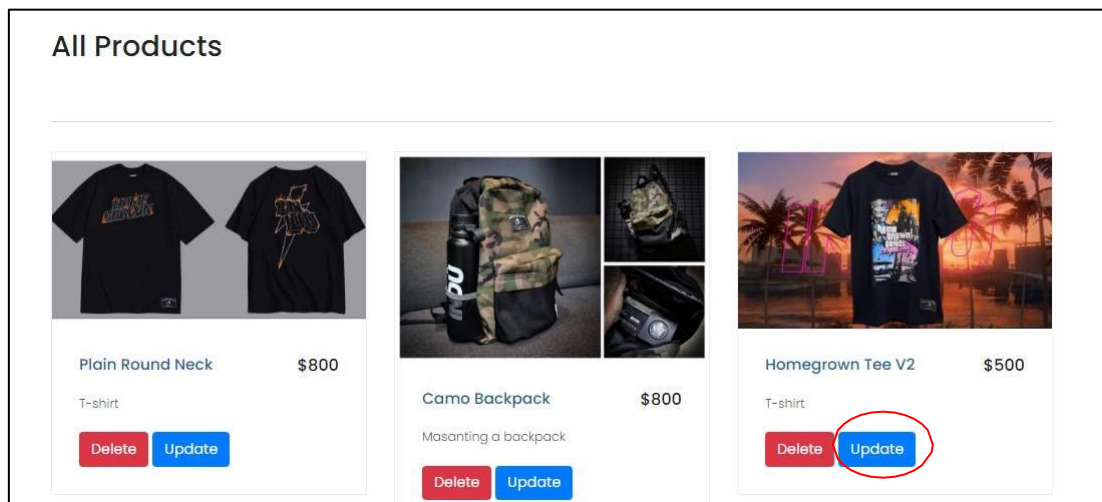

The screenshot shows the 'CREATE NEW CATEGORY' page in the INDU dashboard. The page has a dark header with the 'INDU' logo and navigation links: Home, Dashboard, Create Product, and Create Category. The main content area features a large banner with the text 'CREATE NEW CATEGORY' over a background of patterned clothing. Below the banner is a form titled 'Add New Category'. The form contains a label 'Category Name', a text input field with the placeholder 'Enter category name', and a blue 'Add Category' button. A red oval highlights the text input field.

Create Category Page

Enter the name of the category that you desire to input inside the text box, and select the add category button.

Product Operations

Update product details

The screenshot shows the 'All Products' page. It displays a grid of product listings. Each listing includes an image of the product, its name, price, and a category. Below each listing are 'Delete' and 'Update' buttons. A red oval highlights the 'Update' button for the 'Homegrown Tee V2' product.

Product Name	Price	Category	Buttons
Plain Round Neck	\$800	T-shirt	Delete, Update
Camo Backpack	\$800	Masanting a backpack	Delete, Update
Homegrown Tee V2	\$500	T-shirt	Delete, Update

To update the details of a specific product, select the **update button**.

INDÜ

Home Dashboard **Create Product** Create Category

Enter product name:

Product image: No file chosen

Product description:

Product price:

Select category:

Product Name

Product Category

Product Description

Activate Windows
Go to Settings to activate Windows.

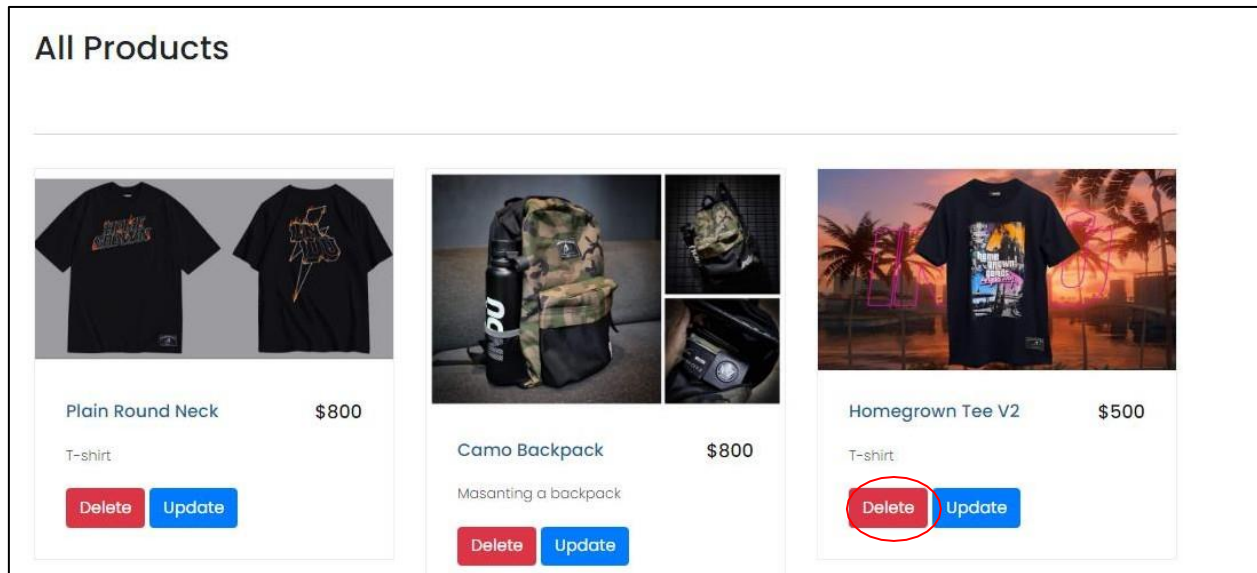

Update Product Page

Clicking the button would redirect you to the update product page.

Fill up the input fields that you wish to update for the selected product. Once done, select the **update product** button to confirm the change.

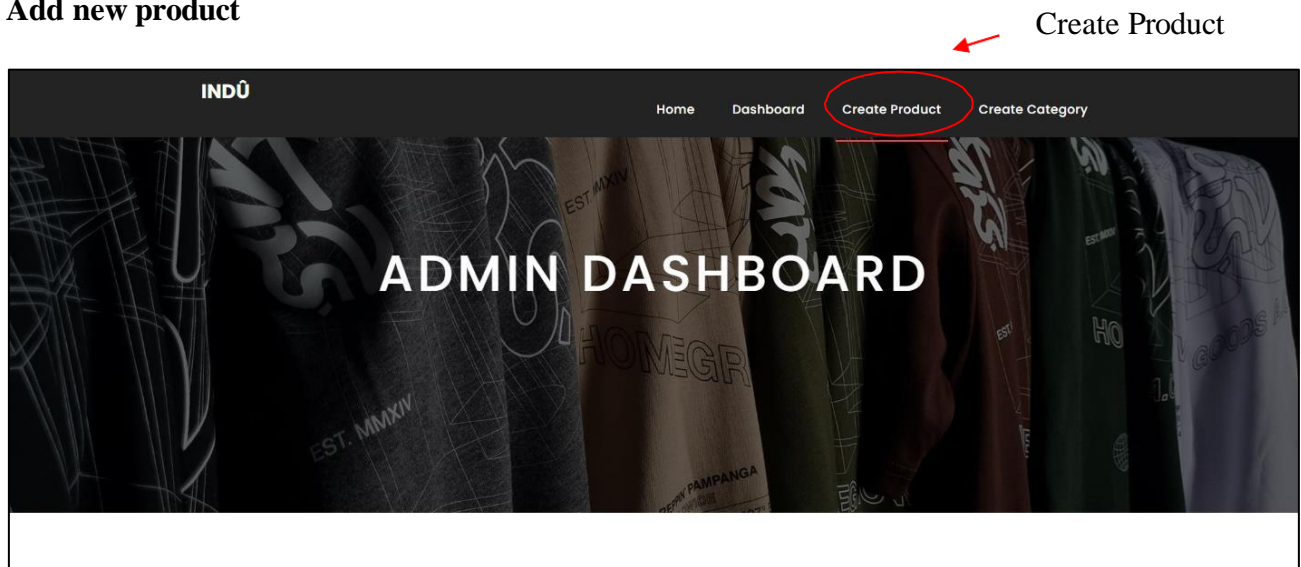

The admin has the freedom to leave some input fields as blank to cater updates where only a specific field needs to be changed.

Delete product

To delete a product from the store, simply select the corresponding **delete button** under the product you wish to delete.

Add new product

To create a new product, select the **create product** link from the navigation bar.

Upon doing so, you will be redirected to the create product page consisting of a form.

INDU

Home Dashboard **Create Product** Create Category

Enter product name:

Select category:

Shirts

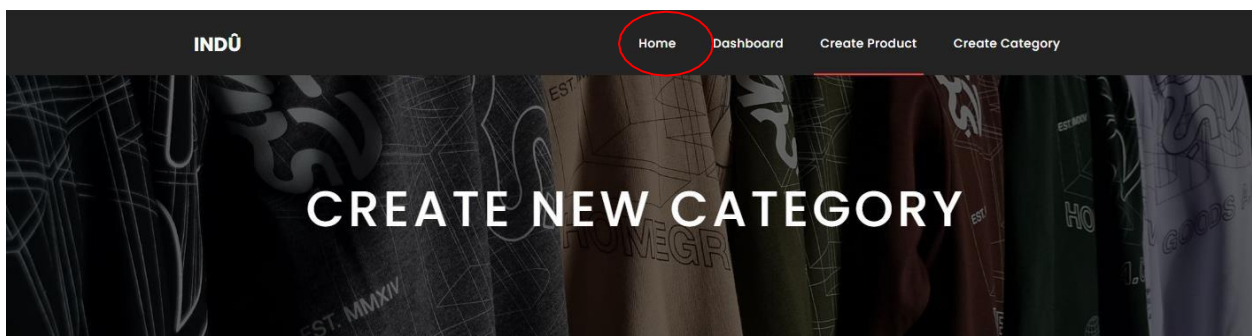

Add Product

Keep in mind that all of these fields are required, unlike the update products form.

Activate Windows
Go to Settings to activate Windows.

Fill up the corresponding fields with data from the product that you wish to add. Keep in mind that these fields are required and are not allowed to be left blank. Once done, add the product to the store by selecting the add product button.

Return to home link

If the admin wishes to return to the website, selecting the home link inside the navigation bar would redirect the admin to the store's homepage.
